## CONFORM CLAAS Device for Demonstration

**Study:** CONFORM Pivotal Trial

**TOPIC:** CLAAS Implant for Demonstration

Conformal Medical is providing demonstration devices to sites for use with potential subject. This provides a tool when approaching patients for possible participation in the study to communicate how the device is constructed and facilitates closure of the Left Atrial Appendage.

The pictures below illustrate the demo and how it will be provided to the site. One demo will be provided per physician. It is labeled not for human use with an identification tag affixed to the tether.
